Farmaceutska kompanija *Abela Pharm* je preuzela od nemačke kompanije *Stada* fabriku u Starim Banovcima i na taj način proširila svoje kapacitete.

Fabrika lekova u Starim Banovcima dodatno je modernizovana adaptacijom, proširenjem i kupovinom nove opreme i od septembra 2020. godine je prilagođena zahtevima farmaceutske proizvodnje lekova i dijetetskih proizvoda.

Pogon u Starim Banovcima

The production facility in Stari Banovci

U novom prostoru odvojene su proizvodne jedinice, hemijska i mikrobiološka laboratorija i magacinski prostor. Proizvodni pogon je opremljen modernom farmaceutskom opremom za kapsuliranje, tabletiranje i izradu praškova.

Mašina za blistiranje kapsula (Famar, Italija)
Capsule blister packing machine (Famar, Italy)

Nova fabrika je omogućila povećanje kapaciteta i dalje širenje kompanije *Abela Pharm* koja već izvozi svoje proizvode na tržište Balkana, Evropske unije i Afrike, a uskoro očekuje i plasman u Aziju. *Abela Pharm* ovom akvizicijom jača prisustvo na domaćem tržištu, izvozni potencijal i obezbeđuje nova radna mesta i sigurnost za više od 100 porodica.

The pharmaceutical company Abela Pharm has completed the acquisition of a pharmaceutical manufacturing facility in Stari Banovci, Serbia, from the German company Stada and, thus increased its production capacities.

The pharmaceutical factory in Stari Banovci has been additionally modernized by adaptation, enlargement and purchasing and installation of new equipment, so that it is suited for production of drugs and dietary supplements.

*Mašina za tabletiranje (Horn Noack, Romaco Holding GmbH, Nemačka)
Tableting machine (Horn Noack, Romaco Holding GmbH, Germany)*

The new facility accommodates separated production units, a chemical and microbiological laboratory, and a storage space. The production process is carried out by using modern pharmaceutical equipment for capsule filling and packing, tableting and powder technology.

The new factory has provided capacity enlargement and further expansion of the company *Abela Pharm*, which is already exporting its products into the markets of the Balkan region, European Union and Africa, with the imminent prospect of entering the Asian market. By this acquisition, the company *Abela Pharm* strengthens its presence on the domestic market, enhances the export potential and provides new jobs and security for over 100 families.
